PCS FACILITY LV03XC076B2))	

O R D E R

The Commission has received the attached letters from Charles R. Huff and Cathy T. Reagan, Dr. Greg S. Steinbock, and Camelia W. Bonnie (hereinafter referred to collectively as "Petitioners") regarding the proposed personal communication services facility to be located at 11208 Covered Bridge Road, Prospect, Oldham County, Kentucky.

IT IS THEREFORE ORDERED that:

1. WirelessCo, L.P. ("WirelessCo") shall respond to Petitioners' concerns by certified letter, within 10 days from the date of this Order.
2. WirelessCo shall file a copy of each certified letter and dated receipt, within 7 days of the date of the receipt.

Done at Frankfort, Kentucky, this 2nd day of July, 1996.

**PUBLIC SERVICE
COMMISSION**

Mr. Don Mills, Executive Director
Public Service Commission
P. O. Box 615
Frankfort, Kentucky 40602

Subject: Application for Certificate of Public Convenience # 96-227.

Dear Mr. Mills:

We are writing to object to the issuance of a Certificate of Public Convenience for the construction of the Sprint Spectrum/Wirelessco, L.P. (Sprint Spectrum) Personal Communication Services tower and facility at 11208 Covered Bridge Road, Prospect, Kentucky in Oldham County listed as case # 96-227.

We would like this letter to serve as notification of a request for intervenor status for the above mentioned case number.

Because the notification of this planned construction was not made to us directly by Sprint Spectrum, but rather indirectly by the Oldham County Planning and Zoning Commission, we have not had sufficient time to acquire all of the details of the proposed tower, much less evaluate its ramifications to the area.

Nevertheless, based on what we know so far, we request intervenor status based on the following:

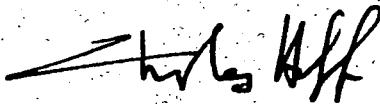

- Despite the fact that the Kentucky legislature blocked Planning and Zoning authority over Public Service Commission issues, this is commercial/industrial construction in an area that is still zoned agricultural and conservation and is settled as a residential area.
- We believe that collocation and neighborhood impact reduction strategies need further consideration.
- We do not believe that this PCS system is a "necessity" as stated in item # 11 of the application.
- We object to the devaluation of this and the surrounding property.

- We object to the despoiling of the visual value of one of the more unique, picturesque, and historic areas of Oldham County.
- We object to sharing our 3/4 mile long single lane gravel drive with the construction traffic, being forced to tolerate the noise and dust during the construction and maintenance, and to the stress upon and endangerment to the horses which are unfenced along the drive.

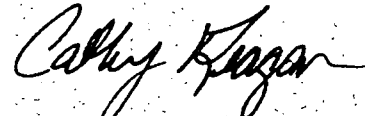

We may wish to expand the list of objections later after we have had time to further study the situation.

Your serious consideration of our objections is appreciated. Please notify us of any developments and of any deadlines involved in the intervention process.

Sincerely,

Charles R. Huff

Cathy T. Reagan

PUBLIC SERVICE
COMMISSION

Dear Sirs -

We are extremely concerned
about the proposed site for a
cellular tower (case # 96-227)
^{proposed} to be built in an environmentally
sensitive area in oldham County.

We respectfully request a hearing
to voice our concerns. Surrounding
landowners were not all notified.
The area is inappropriate for a tower.

Sincerely,

Conelia W Bonnie

Dear Tom:

I learned yesterday of the proposed building of a 265' telecommunications tower on your property. I would like to go on record expressing my concerns regarding this structure. My property is less than one-half mile from this proposed structure.

First, our neighborhood is an agricultural/residential area. The tower would be of a light industrial nature, not in keeping with our current setting. Second, I feel the height of the tower may pose a safety risk to the small aircraft which utilize our airspace as a practice site. Third, the Covered Bridge Road corridor, encompassing Sleepy Hollow, is a wonderfully historic site, with early settlement activity dating back over two hundred years.

My hopes would be that we could continue to preserve the important historical value of our neighborhood for future generations. A 265' telecommunications tower is obviously not in keeping with this goal.

Thank you for your consideration of these concerns. I hope we can continue to foster a well-knit neighborhood relationship which benefits everyone now, and in the future as well.

Sincerely,

Greg S. Steinbock, M.D.

O R D E R

This matter arising upon the motion of Charles R. Huff, Cathy T. Reagan, and Dr. Greg S. Steinbock (hereinafter referred to collectively as "Petitioners") for full intervention, and it appearing to the Commission that Petitioners have a special interest which is not otherwise adequately represented, and that such intervention is likely to present issues and develop facts that will assist the Commission in fully considering the matter without unduly complicating or disrupting the proceedings, and this Commission being otherwise sufficiently advised,

IT IS THEREFORE ORDERED that:

1. The motions of Petitioners to intervene are granted.
2. Each Petitioner shall be entitled to the full rights of a party and shall be served with the Commission's Orders and with filed testimony, exhibits, pleadings, correspondence, and all other documents submitted by parties after the date of this Order.
3. Should any Petitioner file documents of any kind with the Commission in the course of these proceedings, said Petitioner shall also serve a copy of said documents on all other parties of record.

Done at Frankfort, Kentucky, this 2nd day of July, 1996.
